

## **ACGG-DB pre-meeting at Seoul**

Address

I appreciate to inform pre-meeting of ACGG-DB. This meeting is held at Yonsei University at Korea by a kind offer of Prof. Jin Won CHO with his hospitality.

ACGG is a communicative activity for encouraging and sharing glycan studies in Asian countries. The ACGG-DB is a part of the ACGG, and is a trial effort for supporting scientist's communication through the WEB and computing systems. Although ACGG-DB is not any actual existing system yet, we hopefully discuss about feasibility of collaborative network and possible actual effort at the first meeting in Korea.
